Buenos Aires, Argentina

## SUMMARY

As a **Software Engineer** with **5 years** of experience, I've successfully contributed to the development of over **15 applications** in highly **agile** and **iterative** environments. My focus on **maintainability**, **extensibility**, and **user experience** ensures that each project **exceeds expectations**. I'm now seeking opportunities to work on **meaningful, user-centered projects** where I can apply my **passion for innovation** and my **dedication to crafting transformative solutions**.

## EDUCATION

### Systems Engineering

#### National Technological University - UTN FRBA

2018 - Present

- Broadened my expertise by providing knowledge of the **entire software development cycle**, including **requirements analysis**, **system design**, **development**, **testing**, and **maintenance**, gaining a holistic understanding of software engineering principles.

## EXPERIENCE

### Full Stack Developer

#### Magnético

2020 - Present

Magnético is a leading software development company, renowned for delivering exceptional, top-quality products tailored to meet the unique needs of their clients.

- Work with a variety of different languages and frameworks such as **TypeScript**, **Gatsby**, **React**, **Next.js**, and **NestJS** in a highly agile and iterative environment.
- Proficient in crafting **maintainable**, **scalable**, and **high-performing** code tailored to a diverse array of client needs.
- Specialized in translating system and application designs into **seamless user experiences**, ensuring **cross-browser compatibility** and **responsiveness**.
- Passionate about perfecting **system design** and **UX/UI design** so that our products consistently meet and exceed client expectations.
- Proactive at identifying and **resolving bugs** and **bottlenecks** to maintain product integrity and user satisfaction.
- Expertise in conducting **code reviews** and providing constructive feedback to foster a culture of **continuous improvement** and **knowledge sharing** within the development team.
- Skilled in **relational database design**, including **SQL** and **NoSQL** databases like MongoDB, PostgreSQL and MySQL.

### Full Stack Developer

#### Freelancer

2018 - 2020

- Designed and implemented web applications using a variety of front-end and back-end technologies such as **HTML**, **CSS**, **TypeScript**, **React**, **Node.js**, **Java**, **PostgreSQL** and **MongoDB**.
- Collaborated with clients to **gather** and **analyze requirements**, translating them into actionable development plans and ensuring timely delivery of high-quality solutions.

## SOFT SKILLS

### Creative Problem Solving

I thrive in transforming complex problems into innovative solutions.

### Attention to Detail

I find it deeply rewarding to deliver the best possible user experience.

### Adaptability and Flexibility

I excel in dynamic environments and actively drive continuous improvement, ensuring that projects are always evolving and never stagnant.

## HARD SKILLS

### Front-end

TypeScript

Next.js

React

Gatsby

Redux

HTML5

CSS3

Material UI

Radix UI

UX/UI Design

### Back-end

Node.js

NestJS

Express

REST

GraphQL

Java

OOP

### Data

PostgreSQL

MongoDB

Redis

### Development & Operations

Agile

Scrum

System Design

Docker

Linux

Sockets

GIT

## LANGUAGES

### Spanish

Native

### English

Proficient
